as at 31 March

2026

Regulatory Disclosure

“FINMA Ordinance on disclosure requirements for banks and investment firms (DisO-FINMA)” defines the scope of regulatory disclosure.

While all tables of relevance for a bank must be disclosed as part of the year-end reporting, a lower number of tables needs to be disclosed in the quarterly and half-yearly reports.

This disclosure is based on the quarterly disclosure obligations of the Raiffeisen organisation as defined in the “FINMA Ordinance on disclosure requirements for banks and investment firms (DisO-FINMA)”.

Key abbreviations

Key abbreviations	
Term/Abbreviation	Explanation
ASF	Available stable funding
AT1	Additional Tier 1 capital
CAO	Capital Adequacy Ordinance
CCF	Credit conversion factor
CCP	Central counterparty
CCR	Counterparty credit risk
CET1	Common Equity Tier 1 capital
CRM	Credit risk mitigation
CVA	Credit valuation adjustments
D-SIB	Domestic systemically important bank
DTL	Deferred tax liabilities
EAD	Exposure at default
ETC	Other currencies as set out in Annex 2 of FINMA Circular 2019/2 "Interest rate risks – banks"
FINMA	Swiss financial market supervisory authority
G-SIB	Global systemically important bank
HQLA	High-quality liquid assets
IKS	Internal control system
IRB	Internal ratings-based approach
IRRBB	Interest rate risk in the banking book
LCR	Liquidity coverage ratio
LGD	Loss given default
LRD	Leverage ratio denominator
Mn	Margin number
MSR	Mortgage servicing rights
NSFR	Net stable funding ratio
PD	Probability of default
QCCP	Qualifying central counterparty
RSF	Required stable funding
RWA	Risk-weighted assets
SA-BIS	International standardised approach for credit risk
SA-CCR	Standardised approach for measuring counterparty credit risk exposures
SFT	Securities financing transactions
TLAC	Total Loss Absorbing Capacity
T1	Tier 1 capital
T2	Tier 2 capital
VaR	Value at risk
Δ EVE	Change in the net present value (Economic Value of Equity)
Δ NI	Change in capitalised value (Net Interest Income)

Overview

Raiffeisen Group

The Raiffeisen Group is obligated to comply with capital adequacy rules and is thus required by supervisory law to make risk, capital adequacy and liquidity disclosures.

This disclosure is based on “FINMA Ordinance on disclosure requirements for banks and investment firms (DisO-FINMA)”.

Quantitative information has been disclosed in accordance with the requirements laid down in the “Capital Adequacy Ordinance (CAO)”. Some of this information cannot be directly compared with that provided in the consolidated accounts, which is reported in line with the accounting requirements for banks laid down in FINMA Circular 2020/1 “Accounting – banks” and the FINMA “Accounting Ordinance”.

Capital adequacy calculations are based on the same group of consolidated companies as the consolidated accounts. On 16 June 2014, the Swiss National Bank (SNB) issued an order classifying the Raiffeisen Group as systemically important. The provisions covering systemic importance require an additional capital adequacy disclosure. The corresponding information on risk-based capital requirements on the basis of capital ratios and unweighted capital requirements on the basis of leverage ratio is available in Appendix 3 to this disclosure.

Due to the reclassification of core capital meeting requirements in terms of additional loss-absorbing capital under the regime for systemically important banks, some metrics of table KM1 are additionally presented on the basis of this reclassification.

Raiffeisen Switzerland

At Raiffeisen Switzerland level, the disclosure requirements apply in the form of tables “KM1: Key metrics” and “Appendix 3: Disclosure requirements for systemically important banks”.

According to Art. 10 (3) CAO, FINMA can permit a bank to consolidate group companies operating in the financial sector due to their especially close relationship with the bank, even at the level of an individual bank (solo consolidation). Pursuant to the order of 21 July 2016, in the context of individual bank regulations, FINMA permits Raiffeisen Switzerland to solo consolidate the subsidiary Raiffeisen Switzerland B.V. Amsterdam. Since 31 December 2016 capital at Raiffeisen Switzerland has been calculated on a solo consolidated basis. In all other respects there are no differences between the regulatory and accounting scopes of consolidation.

1 As Raiffeisen reclassifies CET1 and AT1 capital to meet gone-concern requirements under the rules governing systemically important banks, the disclosure of this information in this line is additionally made under the rules governing systemically important banks.

2 From 1 January 2026, Raiffeisen applies the regulatory output floor of 72.5%. In accordance with Article 148e of the CAO, Raiffeisen applied an output floor of 80% on a voluntary basis until 31 December 2025.

3 Systemically important banks can refrain from publishing rows 12a, 12c, 12d, 12e (note 8 of the CAO not applicable).

4 Raiffeisen is not affected by a temporary exception for central bank balances.

5 The greater value of minimum capital from a risk-weighted approach (8% of RWA) or an unweighted approach (3% of LRD) is disclosed.

6 Average daily closing averages of all business days in the reporting quarter.

Appendix 3: Disclosure requirements for systemically important banks

Arts. 124 to 133 of the Capital Adequacy Ordinance (CAO) require systemically important banks in Switzerland to submit a calculation and disclosure of capital requirements on a quarterly basis.

The Swiss National Bank declared the Raiffeisen Group to be systemically important by a decision of 16 June 2014. Based on this decision, the Swiss Financial Market Supervisory Authority (FINMA) issued a decision on capital requirements under the regime of systemic importance.

In accordance with the final rules and as a prerequisite for an approvable emergency plan, FINMA stipulated higher requirements in terms of gone-concern funds at the level of 7.86 percent (risk-based view) and 2.75 percent (unweighted view, leverage ratio) for the Raiffeisen Group in comparison with the regulatory requirements under CAO.

With effect from 31 December 2022, the Raiffeisen Group reclassifies additional excess going-concern capital based on full gone-concern requirements without applying transitional provisions. Raiffeisen already fully complies with the full TLAC requirements (including emergency plan requirements) applicable from 2026 on 31 December 2022.

The requirements under the rules governing systemic importance include requirements for risk-based capital requirements as well as those for unweighted capital requirements (leverage ratio), which are as follows:

Appendix 3: Disclosure requirements for systemically important banks

Risk-based capital requirements on the basis of capital ratios –
Raiffeisen Group

Table 1: Risk-based capital requirements on the basis of capital ratios

31.03.2026	CHF million	in % of RWA
1 Basis of assessment		
2 Risk-weighted assets (RWA)	101'338	
3 Risk-based capital requirements (going-concern) on the basis of capital ratios		
4 Total	14'811	14.616%
5 of which CET1: Minimum	4'560	4.500%
6 of which CET1: Capital buffer	4'479	4.420%
7 of which CET1: Anti-cyclical capital buffer	1'414	1.396%
8 of which AT1: Minimum	3'547	3.500%
9 of which AT1: Capital buffer	811	0.800%
10 Eligible capital (going-concern)		
11 Core capital (Tier1)	21'349	21.067%
12 of which CET1	21'349	21.067%
13 of which AT1 High-trigger	–	0.000%
15 Risk-based capital requirements for additional loss-absorbing capital (gone-concern) on the basis of capital ratios¹		
16 Total according size and market share (reflection going-concern-requirement) ²	7'965	7.860%
18 Reductions based on the holding of additional reserves in the form of CET1 or convertible capital as defined in Article 132 (4) CAO ³	–2'307	–2.277%
19 Total (net)	5'658	5.583%
20 Eligible additional loss-absorbing capital (gone-concern)		
21 Total	6'869	6.778%
22 of which CET1, which is used to fulfill gone-concern requirements	3'690	3.641%
23 of which Additional Tier 1, which is used to fulfill gone-concern requirements ⁴	925	0.912%
28 of which Bail-in Bonds	2'254	2.225%

1 Gone-concern requirements taking into account FINMA requirements for an approvable emergency plan at the level of Raiffeisen Group.

2 As a prerequisite for an approvable emergency plan, FINMA stipulated higher requirements in terms of gone-concern funds at the level of 7.86% (risk-weighted view) and 2.75% (unweighted view) for the Raiffeisen Group in comparison with the regulatory requirements under CAO. Raiffeisen meets the emergency plan requirements in full with bail-in bonds and reclassification of excess going-concern capital with effect from 31 December 2022.

3 If a systemically important bank holds the additional funds in the form of core capital, the requirement pursuant to Article 132 (4) CAO is reduced. The requirements may be reduced by one third at the most. Since Raiffeisen reclassifies excess going-concern capital to meet the gone-concern requirements, this reduction can be used, which is why the figures shown take into account the reduction pursuant to Article 132 (4) CAO.

4 High trigger Additional Tier 1 capital is reclassified and used to fulfill gone-concern requirements.

20 Eligible additional loss-absorbing capital (gone-concern)		
21 Total	2'254	13.841%
22 of which CET1, which is used to fulfill gone-concern requirements	–	0.000%
28 of which Bail-in Bonds	2'254	13.841%

¹ Requirements in terms of additional loss-absorbing funds are based on the total requirement consisting of the basic requirements and the mark-ups pursuant to Article 129 CAO. In the case of a systemically important bank that does not operate internationally, these amount to 40% of the total requirement. At the level of the individual institution, no additional gone concern requirements from the emergency plan are applied, as is the case at Group level.

Appendix 3: Disclosure requirements for systemically important banks

**Unweighted capital requirements on the basis of leverage ratio –
Raiffeisen Switzerland****Table 2: Unweighted capital requirements on the basis of leverage ratio**

31.03.2026	CHF million	in % of LRD
1 Basis of assessment		
2 Overall exposure	84'003	
3 Unweighted capital requirements (going-concern) on the basis of the leverage ratio		
4 Total	3'885	4.625%
5 of which CET1: Minimum	1'260	1.500%
6 of which CET1: Capital buffer	1'365	1.625%
7 of which AT1: Minimum	1'260	1.500%
8 Eligible capital (going-concern)		
9 Core capital (Tier1)	4'313	5.134%
10 of which CET1	3'388	4.034%
11 of which AT1 High-trigger	925	1.101%
13 Unweighted requirements for additional loss-absorbing capital (gone-concern) on the basis of the leverage ratio		
14 Total according size and market share ¹	1'554	1.850%
16 Reductions based on the holding of additional reserves in the form of CET1 or convertible capital as defined in Article 132 (4) CAO	–	0.000%
17 Total (net)	1'554	1.850%
18 Eligible additional loss-absorbing capital (gone-concern)		
19 Total	2'254	2.684%
20 of which CET1, which is used to fulfill gone-concern requirements	–	0.000%
26 of which Bail-in Bonds	2'254	2.684%

¹ Requirements in terms of additional loss-absorbing funds are based on the total requirement consisting of the basic requirements and the mark-ups pursuant to Article 129 CAO. In the case of a systemically important bank that does not operate internationally, these amount to 40% of the total requirement. At the level of the individual institution, no additional gone concern requirements from the contingency planning are applied, as is the case at the Group level.
