FINMA Circular 2016/1 "Disclosure – banks" defines the scope of regulatory disclosure. While all tables of relevance for a bank must be disclosed as part of the year-end reporting, a lower number of tables need to be disclosed in the quarterly and half-yearly reports. This disclosure is based on the quarterly disclosure obligations of the Raiffeisen organisation as defined in FINMA Circular 2016/1.

Key abbreviations

Key abbreviations

Term/abbreviation	Explanation
AT1	Additional Tier 1 capital
CCF	Credit conversion factor
CCP	Central counterparty
CCR	Counterparty credit risk
CET1	Common Equity Tier 1 capital
CRM	Credit risk mitigation
CVA	Credit valuation adjustments
D-SIB	Domestic systemically important bank
EAD	Exposure at default
CAO	Capital Adequacy Ordinance
ETC	Other currencies as set out in Annex 2 of FINMA Circular 2019/2 "Interest rate risks – banks"
FINMA	Swiss financial market supervisory authority
G-SIB	Global systemically important bank
HQLA	High-quality liquid assets
ICS	Internal control system
IRB	Internal ratings-based approach
IRRBB	Interest rate risk in the banking book
LCR	Liquidity coverage ratio
LGD	Loss given default
LRD	Leverage ratio denominator
NSFR	Finanzierungsquote (Net stable funding ratio)
PD	Probability of default
QCCP	Qualifying central counterparty
RWA	Risk-weighted assets
Mn	Margin number
SA-BIS	International standardised approach for credit risk
SA-CCR	Standardised approach for measuring counterparty credit risk exposures
SFT	Securities financing transactions
TLAC	Total loss absorbing capacity
T1	Tier 1 capital
T2	Tier 2 capital
VaR	Value at risk
Δ EVE	Change in the net present value (Economic Value of Equity)
Δ NII	Change in capitalised value (Net Interest Income)

Introduction

Raiffeisen Group

The Raiffeisen Group, in its capacity as the central organisation, is obligated to comply with capital adequacy rules and is thus required by supervisory law to make risk, capital adequacy and liquidity disclosures.

This disclosure is based on FINMA Circular 2016/1 "Disclosure – banks".

Quantitative information has been disclosed in accordance with the requirements laid down in the Capital Adequacy Ordinance. Some of this information cannot be directly compared with that provided in the consolidated accounts, which is reported in line with the accounting requirements for banks laid down in FINMA Circular 2020/1 "Accounting – banks" and the FINMA Accounting Ordinance.

Capital adequacy calculations are based on the same group of consolidated companies as the consolidated accounts. On 16 June 2014, the Swiss National Bank (SNB) issued an order classifying the Raiffeisen Group as systemically important. The provisions covering systemic importance require an additional capital adequacy disclosure. The corresponding information on risk-weighted capital adequacy and unweighted capital adequacy (leverage ratio) is available in Appendix 3 to this disclosure.

Due to the reclassification of core capital meeting requirements in terms of additional loss-absorbing capital under the regime for systemically important banks, some metrics of table KM1 under the regime of non-systemic importance are additionally presented on the basis of this reclassification.

Raiffeisen Switzerland

At Raiffeisen Switzerland level, the disclosure requirements apply in the form of tables "KM1: Key metrics" and "Appendix 3: Disclosure of systemically important banks".

According to Art. 10 (3) CAO, FINMA can permit a bank to consolidate group companies operating in the financial sector due to their especially close relationship with the bank, even at the level of an individual bank (solo consolidation). Pursuant to the order of 21 July 2016, in the context of individual bank regulations, FINMA permits Raiffeisen Switzerland to solo consolidate the subsidiary Raiffeisen Switzerland B.V. Amsterdam. Since 31 December 2016 capital at Raiffeisen Switzerland has been calculated on a solo consolidated basis. In all other respects there are no differences between the regulatory and accounting scopes of consolidation.

1 As Raiffeisen reclassifies CET1 and AT1 capital to meet gone-concern requirements under the rules governing systemically important banks, the disclosure of this information in this line is additionally made under the rules governing systemically important banks.

2 Systemically important banks can refrain from publishing rows 12a, 12c, 12d, 12e (note 8 of the CAO not applicable).

3 Average daily closing averages of all business days in the reporting quarter.

Appendix 3: Disclosure of systemically important banks

Articles 124 to 133 of the Capital Adequacy and Risk Diversification Ordinance (CAO) require systemically important banks in Switzerland to submit a calculation and disclosure of capital adequacy requirements on a quarterly basis.

The requirements under the rules governing systemic importance include requirements for risk-weighted capital adequacy requirements as well as those for unweighted capital adequacy requirements (leverage ratio), which are as follows:

Risk-weighted and unweighted capital adequacy requirements of the Raiffeisen Group under the rules governing systemically important banks

of which CET1, which is used to fulfill gone-concern requirements ⁵	3'356	3.394%	3'356	3.394%
of which Additional Tier 1, which is used to fulfill gone-concern requirements ⁶	925	0.935%	925	0.935%
of which Bail-in Bonds	1'956	1.978%	1'956	1.978%

1 Gone-Concern requirements taking into account the transitional rules pursuant to ERV Art. 148j until December 31, 2025

2 Gone-concern capital requirements after transitional phase as of 1 January 2026 and taking into account FINMA requirements for an approvable emergency plan at the level of Raiffeisen Group.

3 Requirements in terms of additional loss-absorbing funds are based on the total requirement consisting of the basic requirements and the mark-ups pursuant to Article 129 CAO. In the case of a systemically important bank that does not operate internationally, these amount to 40% of the total requirement pursuant to CAO, which is listed in the "Transitional rules" column pursuant to Article 148j CAO. In accordance with the final rules and as a prerequisite for an approvable emergency plan, FINMA stipulated higher requirements in terms of gone-concern funds at the level of 7.86% (risk-weighted view) and 2.75% (unweighted view) for the Raiffeisen Group in comparison with the regulatory requirements under CAO. These emergency plan requirements, which Raiffeisen meets in full with bail-in bonds and reclassification of excess going-concern capital with effect from 31 December 2022, are presented in the "Final rules" column.

4 If a systemically important bank holds the additional funds in the form of core capital, the requirement pursuant to Article 132 (4) CAO is reduced. The requirements may be reduced by one third at the most. Since Raiffeisen reclassifies excess going-concern capital to meet the gone-concern requirements, this reduction can be used, which is why the figures shown take into account the reduction pursuant to Article 132 (4) CAO.

5 With effect from 31 December 2022, the Raiffeisen Group reclassifies excess CET1 capital based on full gone-concern emergency plan requirements, without applying transitional provisions.

6 High trigger Additional Tier 1 capital is reclassified and used to fulfill gone-concern requirements.
